## How Stat Checks Work

When you face a challenge, you'll be told which stat to use. Here's how to do it:

1. Roll the twenty-sided die
2. Add your relevant stat to the roll
3. Compare total against the difficulty:
  - a. Easy: 15+
  - b. Medium: 20+
  - c. Hard: 25+
  - d. Nearly Impossible: 30+

Example: You face a Tech-Savvy check. Your Tech-Savvy stat is 16. You roll the die and get a 7. Total = 7 (die roll) + 16 (your Tech-Savvy) = 23 This would succeed at an Easy (15+) or Medium (20+) challenge but fail at a Hard (25+) one.
